# SHYNESH RAPARLA

Andhra Pradesh, India | 8520054046 | raparlashynesh75@gmail.com | shynesh.com

## Objective

Software developer and QA automation engineer with a B.Tech in Computer Science and hands-on experience in Python, Playwright test automation, machine learning and front-end development. Seeking a Master's programme in France to deepen my technical expertise.

## Professional Experience

**Wysera Technologies** — Social Media Manager | Sep 2026 – Present

- Manage social media accounts for company clients and employees, planning and publishing content across platforms.
- Refreshed brand social profiles for multiple brands, including banners, headers and profile content tailored to each brand's target market.
- Plan content calendars and schedule posts using PostWyse, an AI marketing platform.
- Prepared platform-sized cover and banner creatives for LinkedIn, Facebook, X, YouTube, Instagram, Medium and Google Business.

**Wysera Technologies** — QA Engineer | May 2026 – Aug 2026

- Extended Playwright automation to TypeScript, writing UI and API tests with the Page Object Model for OpsWyse and FoundersHub.
- Performed in-depth manual QA across OpsWyse modules (Dashboard, Mailbox, Calendar, Atlas, Studio) and documented defects as structured bug reports.
- Set up an AI agent-based QA bot to run end-to-end test workflows and report PASS/FAIL results.
- Contributed to front-end UI development for healthcare web apps.

**Connexr Solutions Private Limited (RSA Tech Group)** — Quality Assurance Analyst | Jan 2026 – Apr 2026

- Built Playwright automation suites in Python (pytest) from scratch using the Page Object Model, including a framework with automatic bug detection and report generation.

- Debugged failing automated tests and documented defects as structured bug reports.

## Education

**B.Tech in Computer Science and Engineering** — Lakireddy Bali Reddy College of Engineering, Andhra Pradesh, India | Nov 2021 – Apr 2026

**Intermediate Education** — Sastra Educational Institution | Apr 2019 – May 2021

**Secondary Education** — Viswabharathi EM High School | Jun 2018 – Mar 2019

## Technical Skills

**Languages:** C, Python, Java, TypeScript, JavaScript

**Web & Testing:** HTML, CSS, Playwright, pytest, API Testing, Page Object Model

**Databases & Tools:** MySQL, MongoDB, GitHub, GitHub Actions, VS Code

## Internships

**AIMERS** — Student Intern, Software Trainee | Mar 2024 – Jul 2024

- Designed and deployed ML/AI solutions, including a TensorFlow and Flask chatbot for a medical image processor.

**SkillDzire** — Machine Learning Intern | Dec 2024 – Apr 2025

- Worked on data preprocessing, model development, evaluation and basic deployment.

## Projects

- **Automated Animal Detection System:** Built a real-time YOLOv8 detection model on 10 animal classes for road safety, reaching 95% precision and 93% F1-score.
- **Cars Info (Full Stack):** Built an HTML/CSS/JavaScript web application showing car models, fuel types, transmission types and prices.

## Certifications

Infosys Springboard (HTML, Node.js, CSS) | NPTEL (Joy of Computing using Python, English Language for Competitive Exams) | SkillDzire (Machine Learning)
